PROFESSIONAL SUMMARY

Computer Science graduate and software engineer with professional experience in backend and frontend development, systems maintenance, and IT support. Experienced in building, maintaining, and improving business applications, troubleshooting hardware, software, and network issues, supporting end users, and managing IT systems. A versatile and adaptable professional with a strong ability to solve technical problems, take ownership of systems, and contribute across software development and IT support functions.

TECHNICAL SKILLS

Web Development: PHP (Laravel), JavaScript, Python, HTML5, CSS3, Bootstrap, React, Next.js, Node.js, REST APIs

Databases: MySQL, phpMyAdmin, PostgreSQL, SQL

Systems & Infrastructure: WAMP / XAMPP, Apache, Windows & Linux administration, Active Directory, AWS, Hostinger, cloud hosting & deployment, server monitoring, backup & recovery, Git / GitHub / Bitbucket

Networking: TCP/IP, LAN/WAN, Wi-Fi configuration, connectivity troubleshooting, VPN fundamentals

IT Support: Tier 0/1 support, incident triage & escalation, user account & access management, hardware & peripheral setup, end-user training, technical documentation

Design: Adobe Illustrator, Affinity Designer, Photoshop, Figma, Stitch, Canva (company & marketing materials)

PROFESSIONAL EXPERIENCE

Dot Com Zambia PLC — Lusaka

2024 – Present

Junior Software Engineer (Promoted from Intern) 2025 – Present

- Develop and maintain business-critical web applications using PHP (Laravel) and MySQL on live production systems.
- Build new features from business requirements, fix defects, and verify fixes before deployment.
- Administer MySQL databases and access — user accounts, permissions, and password resets for enterprise applications.
- Provide front-line technical support to staff and customers by phone, email, and chat, troubleshooting software, hardware, and connectivity issues on Windows and Linux.
- Support deployments, upgrades, configuration changes, monitoring, and performance checks; produce technical documentation and user guides.

IT Intern 2024 – 2025

- Built the company's frontend for the main corporate website, translating business requirements into responsive, production-ready pages.
- Contributed to development and support of the company's IPO systems, assisting with functionality, fixes, and testing.
- Produced technical documentation covering internal systems, workflows, and support procedures.
- Provided ongoing technical support and troubleshooting on the company's production systems alongside senior developers.
- Gained hands-on exposure to the company's live infrastructure ahead of promotion to Junior Software Engineer.

Mulungushi University — Kabwe

2024 – 2025

ICT Support & Management Intern

- Delivered first-line (Tier 1) ICT support to staff and students, resolving hardware, software, account, and network issues.
- Installed, configured, and maintained laptops, desktops, printers, peripherals, and operating systems across campus.
- Diagnosed and resolved LAN, wireless, and internet connectivity problems, including Wi-Fi configuration and TCP/IP troubleshooting.
- Created and managed user accounts, reset passwords, and assisted with server monitoring and backup verification.
- Trained users on safe computing practices and maintained service logs, asset records, and documentation.

Fusionprints / Mass Media — Lusaka

2024

Graphic Designer / Technician

- Designed company and marketing materials using industry-standard design tools.
- Provided technical support and assisted with workstation and network maintenance for production operations.

EDUCATION

BSc in Computer Science (Credit) — Mulungushi University

2021 - 2025

Graduated 31 October 2025

Relevant coursework: Computer Networks, Operating Systems, Database Systems, Information Security, Software Engineering, Cloud Computing.

ACADEMIC & PERSONAL PROJECTS

Conservation Volunteer Coordination Platform — Capstone *Laravel, React, Inertia, Tailwind*

- Built and deployed a full-stack platform with role-based authentication, account management, and responsive dashboards; managed testing, documentation, and hosting. Backend databases built and managed on a WAMP stack via phpMyAdmin.

Live Client Websites *solganic1.com, soilsynth.com, Wedding Manager App*

- Delivered client systems from requirements through deployment, hosting, and ongoing user support.

CERTIFICATIONS

Huawei Talent Online — Cloud Computing Fundamentals • AI Fundamentals & Applications • Internet of Things (IoT) | Certificate of Completion — UX & Web Design Master Course | Cisco CCNA (in progress) | Member, ICT Association of Zambia (ICTAZ).
